

## THREAD COMPOUND TECHNICAL DATA

# SRL SUCKER ROD LUBRICANT

SRL is an environmentally safe, specialty lubricant developed for the consistent control of torque during the makeup of sucker rod connections.

This product contains inhibitors that prevent the pitting damage caused by H<sub>2</sub>S and ensure maximum corrosion protection of both pin and box threads.

SRL is packaged in convenient polyethylene squeeze top bottles. The flip-top dispensing lid allows easy application of a single bead of SRL material and thereby reduces the amount of lubricant wastage.

NET WEIGHT 0.9 KG (2LB)  
PRICING: ON REQUEST  
PACKAGED: 12 BOTTLES PER CASE\*

\*AVAILABLE IN BULK QUANTITY
