

COP-R-LUBE®

- This anti-seize compound is blended using metallic copper flakes and amorphous graphite in a complex grease carrier. It contains additives for extreme pressure control and corrosion resistance. Cop-R-Lube® is used for the initial break-in of rotary shouldered connections.

Product Specifications

Service Rating	200° C / 392° F
Drop Point	240° C / 464° F
Brushability	-18° C / 0° F
Torque Correction Factor	1.10

NOTE: The torque correction factor is influenced by a variety of conditions such as pipe size, thread geometry, drilling mud contaminants, and drilling environment. In all applications experience and prior knowledge should be used to adjust make-up torques as the torque correction number provided is relative.

Service Recommendations

Tool joints, drill collars, and drilling tool connections

Packaging

10 L Metal / 2.5 gal Net 13.6 kg Net 30 lb

20 L Metal / 5.0 gal Net 22.7 kg Net 50 lb
